

## What Not To Flush

- Glass, Metal, Wood, Paper
- Seafood Shells or Food Scraps (your toilet is not a garbage disposal)
- Cloth, Rags, Disposable Diapers
- Feminine Hygiene Products (pads, tampons, et cetera)
- Cigarette butts
- Condoms
- Towels
- Cotton Balls/Swabs
- Dryer Lint
- Syringes/Needles
- Disposable Razors/Blades
- Anything Plastic
- Strong/Toxic Chemicals
- Degreasing Solvents
- Flammable Materials
- Cooking Fats
- Hair Clippings
- Dental Floss
- Clean Up Wipes

While many items on this list seem like common sense, you might be surprised to learn that nearly all these items have been found in backed up sewer lines, the lift station and the headworks at the treatment plant. Do us all a favor and **“put it in the trash”!**
